If you are a publisher and wish to provide your affiliates a login then in the left menu under Manage > Links on the Links page toward the bottom is your custom affiliate login url which your affiliates can use to log directly into your promotional area of the affiliate network.

If you are a customer of a publisher or a free nanacast network affiliate then your affiliate login details are the same as your normal membership or nananacast login details. You may use the forgot password retrieval option on any login page to retrieve your login details.

All affiliates are also members of the Nanacast affiliate network and may also go directly to Nanacast.com and login and using the left menu to go to Affiliate Promotion > Affiliate Center may browse all the programs that they are an affiliate for or may also browse and join other programs much like in other affiliate networks.
